# INTRODUCTION

Hi,

This is Michael Hopkins here from EbookTimes.com. I want to take this opportunity to thank you for downloading this ebook.

Now, I know you don't want to spend 20 minutes reading my rambles, so I'm going to keep this short and sweet.

Throughout the next few pages you'll find a list of 45 websites where you can submit your ebook – together with a few notes on each site. In most cases, submitting your ebook is free and will result in direct visitors as well as a valuable search-engine-friendly backlinks to your site.

I'd suggest writing a few different descriptions of your ebook before you get started – each one focusing on one or two important keywords related to your topic.

Once you've done that, just start submitting. If you do just a few every day, you'll have them all done in no time and will enjoy the benefits long into the future.

Wishing you the best of success.
